

RESEARCH PAPER PRESENTATION
(IE708)

Topics selected are:

1. Adversarial Policies: Attacking Deep Reinforcement Learning- [LINK](#)
2. On the Weaknesses of Reinforcement Learning for Neural Machine Translation - [LINK](#)
3. An immediate-return reinforcement learning for the atypical Markov decision processes-
[LINK](#)

Note: The papers selected for the presentation are in order of preference.

Thank you.

Best Regards.

Praharsh Agrawal
